The Jordan Hardware Co.

OF WILLIMANTIC, SAYS:

You get all the cream with a De Laval

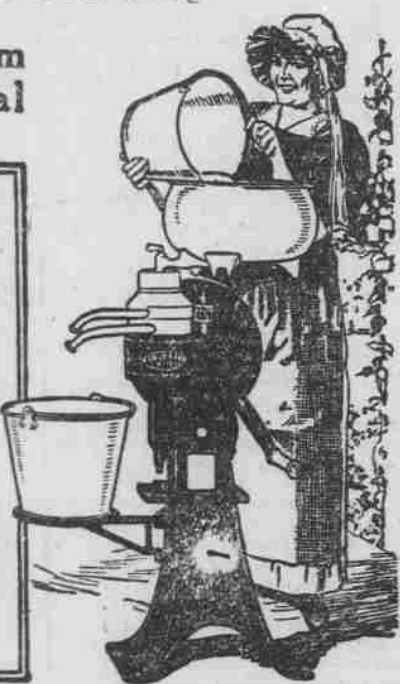

GETTING all the cream means getting all the profit. It means that more money can be saved, or that more is available for use in building up the farm or for paying expenses.

Not every separator is designed to do it. It will get all the cream; some may do so for a short time.

But there is one machine that can always be depended upon to skim clean—the De Laval. You don't have to take your word for it; ask any De Laval user.

A De Laval user gets more cream from the milk of each cow, gets longer service from his machine, and spends less time turning and washing it. Even if you have only one good cow it will pay you to own a De Laval.

Wouldn't you like to have more about the De Laval? Stop in and see how you can get it.

Sooner or later you will buy a De Laval

SATURDAY SPECIALS

Strange!

It is queer to observe how things accumulate; not dollars, but things just ordinary. You know how it is in the home, that tinware, crockery, old clothes and empty bottles (formerly) will multiply like the rabbits in "Pigs in Pigs." The same conditions hold true in any place of business.

Corsets 19c

Yesterday we scrambled quite a quantity of corsets, mostly net corsets in small sizes, formerly priced at 50c to \$2.00 each, and now to be sold for 19c each (that is, if you can wear size 18, 19 or 20.)

Undervests 3 for 25c

During flush times you became so accustomed to wearing fine underclothing, that you dislike to step down to the old-time inexpensive garments. So we offer several dozens of ladies' summer undervests at "three for a quarter" and brag about nothing but the price.

Union Suits 3 for \$1.00

Quantities of these union suits sold for 50c (regular sizes) and 59c (extra sizes) but we have too many of them and want to sell every one of them before snow flies. Sizes 38, 40, 42, 44; three for \$1.00.

The annual cup match of the Plainfield bowling club has just been completed. After many exciting matches in the preliminary and semi-final matches, George Eastham finally won the cup from Fred Kershaw, the runner-up. Many expected that Jack Riding, who had won the cup the previous two years would again be a winner, but he was beaten in the semi-finals. There were twenty-four entries with handicaps ranging from two behind scratch to a limit of seven points. The handicappers were Fred Watson, Tommy Rhodes and Jack Kay. In the semi-finals Tommy Rhodes (scratch) was beaten by George Eastham (three points) and Fred Kershaw (three points) defeated Jack Riding (2 behind scratch). In the finals, George Eastham defeated Fred Kershaw after a very exciting match. The cup will be presented Saturday. Later on the club is to have a tournament where each member will bowl each other. Winners will be decided by averages rather than by elimination. Bowling on the green has become very popular.
